

I want the FCC to expand community radio, including
Low Power FM radio, to local neighborhoods.

I want the FCC to protect local news broadcasts,
and give local citizens the power to make
their voices heard on their own airwaves.

I want the FCC to restrict the power of
big companies like Clear Channel and Viacom
to buy up all the stations in my town.

I think radio is a public form of communication
that should not be ruled by big business
or corporate interests. When it becomes
too homogenous, it becomes a tool of
social control. Let's keep the airways free.
